

# XELERATE PASSION PROJECT PROGRAM

The Xelerate Passion Project program is an online program where students get to use a proven framework developed by Xelerate to ideate, strategize and execute a project based on the major that the student wants to pursue in college. This Passion Project will help students create a compelling and credible profile and greatly increase their chances of getting admitted to highly selective universities. Xelerate professors and mentors will guide students throughout the entire journey which will include brainstorming sessions, intellectual support to encourage innovative and independent thinking and training to hone the student's skills. All students will receive direct, hands-on coaching from the mentors and the Xelerate team to form a Passion Project that will STAND OUT from other applications.
